Package Title: Water Gun Pack – Lowpoly Stylized Cartoon Hyper Casual Toy - Kids Collection

About:

Add a splash of fun to your game with this colorful Cartoon Water Gun Pack, perfect for hyper-casual and stylized game projects.

Bring playful action to your project with this Cartoon Water Gun Pack, crafted in a lowpoly hyper-casual style with vibrant and colorful designs. This pack includes 22 unique water gun models, perfectly optimized for stylized, casual, and kid-friendly games.

Key Features:

- 22 stylized water gun models in fun and unique designs
- Lowpoly meshes, optimized for real-time use in mobile, PC, VR, and AR
- Bright and colorful cartoon style for hyper-casual games
- Ideal for kids' animation videos, cartoon shorts, and playful visual storytelling
- Perfect for hyper-casual shooting mechanics, fun mini-games, and toy-themed adventures
- Suitable for props, toy-themed games, environments, or fun shooting mechanics
- Scale and Size maintained to realistic sizes according to **1 Unit = 1 Meter = 1 Unity Cube**

Bring charm and color into your next project with these game-ready water blasters!

Make your game more engaging with these game-ready water blasters – ideal for adding color, fun, and style to your project!

Technical Details:

- **Geometry Triangles** 195.5k
- **Vertices** 99.4k
- **PBR** No
- **Textures** 1 (PNG 512x512)
- **Materials** 1
- **UV Layers** Yes
- **Vertex Colors** No
- **Animations** 0
- **Rigged geometries** No
- **Morph geometries** 0
- **Scale transformations** No

Includes:

- Prefabs for useful assets
- Fbx file have separate prefabs folder, Model and Material Folder to make it easy to use.

Important Notes (Easy Resolve Pink Materials for URP and HDRP):

This package includes an **AutoSwitchMaterialShader** script that detects the active render pipeline (HDRP, URP, or Built-in) and automatically switches the materials to the appropriate **SpeedTree8 shader** without manual adjustments.

- **For URP (Figure 1):** Automatically switches to the Universal Render Pipeline ► Nature ► SpeedTree8 shader and enables **Two-Sided = Yes**.
- **For HDRP (Figure 2):** Automatically switches to the HDRP ► Nature ► SpeedTree8 shader and enables **Double-Sided = Checked**.
- **For Built-in Pipeline (Figure 3):** Automatically ensures **Two-Sided** rendering is enabled via the internal shader setting.

Once the package is imported, all **SpeedTree8 materials** in the **Materials** folder are correctly configured for the active render pipeline, no manual changes required.

For Manual Fix: [Tools](#) → [AutoSwitchMaterial \(PS\)](#) → [FixMaterials](#)
